

# net.art

net.art is a form of art that is strictly created for the internet. It is a complex structure that can include various images, texts and sounds, that are all hyper-linked as one. net.art is a very interesting concept that refers to artists who have been working in the medium of internet art before 1994. Vuk osi , Jodi.org, Alexei Shulgin, Olia Lialina, and Heath Bunting were among the main figures of the movement. They helped spread the word and lead the new movement of net.art across the world. There are many different forms of net.art, and many are still creating new means of the medium to this day. It is a culture that is growing every minute, and has a world of endless possibilities.
